

Kavya Rao

AI Engineer

PROFESSIONAL SUMMARY

Entry-level AI Engineer with experience in deep learning, computer vision, large language models, RAG systems, and API integration.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science | 2022 - 2026

TECHNICAL SKILLS

Python, Deep Learning, TensorFlow, PyTorch, Computer Vision, LLM, RAG, APIs, FastAPI, Docker, Git

PROJECTS

- AI Image Recognition — developed a TensorFlow deep learning model for image classification.
- AI Question Answering Assistant — built an LLM-based question answering application with RAG.
- AI Model API — exposed an AI model through FastAPI and containerized the application using Docker.

EXPERIENCE

AI Intern — experimented with deep learning models, integrated APIs, and developed prototypes using LLM and computer vision technologies.
