

Arjun Mehta

Machine Learning Engineer

PROFESSIONAL SUMMARY

Entry-level Machine Learning Engineer focused on supervised learning, model evaluation, deep learning, and deployment.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning | 2022 - 2026

TECHNICAL SKILLS

Python, Machine Learning, Scikit-learn, Pandas, NumPy, PyTorch, TensorFlow, FastAPI, Docker, Git

PROJECTS

- House Price Prediction — built regression models using Python and Scikit-learn with preprocessing and model evaluation.
- Image Classification System — trained a PyTorch neural network for image classification.
- ML Model API — deployed a trained model through FastAPI and packaged the application using Docker.

EXPERIENCE

Machine Learning Intern — prepared datasets, trained classification models, evaluated model performance, and experimented with deployment workflows.

NOTE

This is a fictional sample resume created for educational testing of the AI Resume Analyzer project.
